Alaska Groups to Release Report on Toxics in Baby Products

The Alaska Community Action on Toxics (ACAT) and AkPIRG will be releasing a report on toxics in baby products at a news conference on Tuesday, October 18 at 11 am. Spokespersons include representatives from the two organizations, the Learning Disabilities Association of Alaska, medical professionals and concerned parents. The groups will present examples of baby products of concern that are available at Alaska stores.

When: Tuesday, October 18th, 11am

Where: ACAT Offices - 505 West Northern Lights Blvd, Ste 205, Anchorage

Confirmed Speakers:

Matthew Wappett Ph.D., President, Learning Disabilities Association - Alaska

Dr. Adam Grove, physician with the Natural Health Center (naturopathic practice specializing in children's health)

Dr. Birgit Lenger, physician with the Natural Health Center (naturopathic practice specializing in women's health)

Shawna Larson, mother of two children and Environmental Justice Coordinator for Alaska Community Action on Toxics and Indigenous Environmental Network
